

**6<sup>th</sup> September 2010**

**Cambourne Osteopaths are an integral part of ThyssenKrupp Tallent's team that have delivered reductions in absence form over 6% in 2007 to 2.3% in 2010.**

**They have worked closely with our site occupational health team to provide essential musculo-skeletal advice which has been key to delivering a safer and happier place to work.**

**By liaising with the occupational health nurse, Cambourne Osteopaths have ensured that those employees with musculo-skeletal complaints are seen immediately and allowed to be integrated back into work at the earliest possible opportunity.**

**I cannot recommend Cambourne Osteopaths highly enough in the modern workplace.**

**Stephen McCrystal  
Operations and Site Director
